HF-7870 XR HOPPER FEED SHREDDER

The HF-7870 XR “Mega Destroyer” is the largest one-pass top feed shredder in Cresswood’s product line, weighing in at 23,000 pounds. The 7870 is equipped with a 70” long, 20” diameter XR V-rotor cutterhead, innovative ram and control technology to maximize throughput, and an expanded cutting chamber to accommodate and destroy large volume and/or large sized materials. This 15’ long “Mega Destroyer” powerhouse is built to solve the larger size reduction needs for the paper recycling, printing paper waste, and secure information destruction industries.
