**CRESSWOOD - Adding Value with Versatility & Assured Results!**

## THE PAPER EXCHANGE - Pittsburgh, PA

The Paper Exchange, established in 1996, is Pittsburgh's largest independently-owned secure shredding company. NAID AAA-certified, TPE provides customized data protection, document storage, recycling, and secure destruction solutions to clients across industries, and throughout the region.

A Cresswood HF-7870-1150XR Shredder/Grinder is the core technology powering off-site secure shredding and specialty services at The Paper Exchange. The fully-integrated Cresswood 'shred & bale' system delivers processing versatility, custom-output capability, and optimized throughput numbers within an ultra-compact facility footprint at TPE.

**Cresswood Offers:** Single-Shaft, Low-Speed, Eco-Friendly Shredders and Turnkey Systems for the Document Storage and Secure Destruction Industries - Paper, Plastic, Fabric, E-Scrap

Secure Records Management | Document Destruction Services

➤< **"We're sold on the Cresswood's versatility.** It gives us the ability to produce custom shred sizes and meet smaller particle specifications with screen selection - and that's a great selling point with accounts. With the Cresswood, we've been able to greatly expand our niche markets for secure product destruction.  
Pharmacy and pill bottles are a good example of this business growth."

➤< **"From day one, Cresswood has provided outstanding service and support.** Our current facility has some space constraints, and they engineered a complete system that let us reclaim square footage. **And the up-front training provided by the Service Team has set a new standard for excellence, as far as we're concerned."**

➤< **"In terms of particle size, the Cresswood 'Destroyer' gives TPE everything we need to abide by NAID standards in one pass.** We're able to assure security for our clients, and blast the shred out quicker. **The question we keep asking ourselves is - why did we wait so long to get our Cresswood!"**
